**World Clubs
Shore Angling Championship
Dunkirk
26/10 - 02/11/2019**

FÉDÉRATION FRANÇAISE DES PÊCHES SPORTIVES

NATIONAL SEA COMMISSION

Patrick MORGAN,

Dunkirk has been active for several years in the field of shore angling and has now a prominent place in the French federation.

After several events organized in Dunkirk, such as regional and national competitions, the brand new team of the Surf Casting Club Dunkerquois confirms its federal commitment and has now exemplary skills.

The 2019 World Club Shore Angling Championship is still a step up in terms of organization. But no fear: competence, conviviality, major character of the club spirit of this competition is the very image of what has been brilliantly developed in recent years by President Frédéric BAUDIN and his entire team.

An event for the competitors, which I know, will keep this championship an indelible memory. A moment of sport carried out in the respect of ethics, in the conviviality and the joy shared between all, winners and less classified.

P.MORGA

1/ Welcome speech from the Surf Casting Club Dunkerquois' President

The [Surf Casting Club Dunkerquois](#) and [the city of Dunkirk](#) are glad to invite you to participate to the 27th clubs world shore angling championship, which will takes place in Dunkirk, from the 26th of October till the 2nd of November 2019.

Dunkirk, the last main city before the Belgian border, has large and sandy beaches. Dunkirk is known for its metallurgical industry, as well as for its fishing port. But Dunkirk is even more famous for her carnival, every weekend from January to March! Finally, the city has made an international reputation since the release of the movie "[Dunkirk](#)", by Christopher Nolan, staging the Dynamo Operation during the Second World War.

The emblem of the city is the famous [pirate Jean-Bart](#), whose silhouette is also part of the [logo of the Surf Casting Club Dunkerquois](#).

My team and I will do our best to make this championship a friendly and successful event, and will be with you during this fishing week.

Frédéric BAUDIN

Dunkirk, Braek Dike: training + day 1

Mythical spot by its concrete road of 6 km long located West of the East Port of Dunkirk. We can both fish during low tide and high tide. At low tide, the beach is discovered on about 150-200m. Low slope, sustained current at high tide once on the dike in an easterly direction (rising tidal flow). Brackish water (sand in suspension). In some places, a slight relief may appear. A few small pebbles can also appear at certain times of the year at 20m below the dike, especially in the event of a recent storm.

Dunkirk, Malo beaches: days 2 + 3 + 4

Malo beaches are located East of the Braek dike and of the Eastern Port of Dunkirk. It faces homes and businesses, much less isolated than the Braek dike. We can both fish during low tide and high tide. The sea withdraws on about 250m, the high tide stream going West, while the low tide stream goes East.
