D. José Luis Bruna i Brotons
President of Spanish Fishing
and Casting Federation

Dear athletes, captains and delegates:

As President of the Spanish Fishing and Casting Federation, I have the honour to greet and welcome the athletes, captains and delegates, as well as the delegates of the Fips mer, who will meet in Valencia, between 26th and 31th October, to celebrate the I World Championship of Sea Kayak Fishing.

The city of Valencia and its dynamic Provincial Council have been distinguished by their support for sport, as an activity that generates values such as effort, self-discipline, respect and its integrating social capacity, to which specific values such as respect for aquatic ecosystems and the natural environment can be added in sport fishing, as well as its great social transversality. This tradition of promoting sport characterises Valencia. For this reason, both the Spanish Fishing and Casting Federation and the Fishing Federation of the Valencian Community are proud and satisfied that this world competition can be held in the marvellous facilities of the Real Club Náutico de Valencia and the Marina de Valencia.

The Valencian Community and its entire coastline is a tourist attraction of the first order. During these days you will be able to experience its climate, its magnificent beaches, its historic monuments and its excellent and varied gastronomy. You will see for yourselves its welcome and hospitality, every time the world of competition fishing comes knocking on its doors.

I would like to publicly thank the Fips mer for granting the organisation of this 1st World Championship for Spain, without forgetting the recognition and support that the Consejo Superior del Deporte has always given to our sport.

But I would not like to end these lines of greeting and welcome without expressing my satisfaction, my recognition and sincere thanks to the Fishing Federation of the Valencian Community, for its dynamism, its good management and brilliant promotion of the sport of fishing, which makes it one of the great pillars of the Spanish Federation of Fishing and Casting (FEPEYCA). From here I would like to thank all its organisation, all its efficient and enthusiastic collaborators. I am sure that this World Cup will shine with its own light.

Welcome and may the best man win!

Rods - Baits.

Only 1 rod with reel may be used when fishing. One spare rod mounted without bass is allowed. It is possible to have other unmounted spare rods.

The baits will be natural, provided by the organisation, if possible, four boxes of Korean and 500 gr. of prawns, and artificial baits provided by the angler may also be used.

SCORING SYSTEM

To help preserve the survival of the fish caught, the classification will be based solely on the length of the fish.

The fish are measured in cm, photographed on the measuring rod (controlled by the jury) and released as soon as possible. In order to have the clearest possible picture, the batten must be fixed in the kayak. At the end of each round, the competitors must send the photos to the jury so that they can be transferred to the computer. After viewing the photos, the jury will validate the measurements and establish the ranking.

The delicate capture of a fish can only be done with the help of a dip net, which must not cause injury to the fish.

The minimum size for all fish is 18 cm. Ranking by length (FIPS-M Rules)

- For each legal size fish (≥ 18 cm) 10 Points.
- For every centimetre (1 cm) 1 Point.

Every centimetre started is rounded up.

- For each "Oversize" fish (= larger than 50 cm) a bonus of 50 points is awarded in addition to the points normally awarded.
- In the event of a tie, the angler who has caught the most fish takes first place.
- And then the angler with the longest fish will be considered.

ESSENTIAL ANTI-DOPING ADVICE

Athletes are reminded if they take any medication they must check it against the WADA Prohibited Substance & Methods list.

Particular attention must be paid to the use of anti- hypertensive agents, especially diuretics, which are popular in singular preparation and/or in a combination with other normally permitted drugs.

Diuretics are always forbidden.

For these reasons, it is necessary for every athlete or National Federation to check the list for prohibited substances and process a TUE as necessary. The Therapeutic Use Exemption (TUE) must be granted before taking a prohibited medication.

An application for a TUE must be requested 30 days before taking part in the championships. The application forms must be filled in carefully with your physician/doctor who must authorise the application. A physician's certificate or prescription on its own does not mean that the athlete has permission to use the prohibited substance or method.

The application should be completed either in English or French and sent directly to the office of the CIPS President.
