President of the Spanish Federation
Fishing and Casting

Dear athletes, captains and delegates:

As President of the Spanish Fishing and Casting Federation, I have the honour to greet and welcome the athletes, captains and delegates, as well as the delegates of the Fips mer, who will meet on the beaches of Peñíscola and Castellón between the 16th and 23rd of November, on the occasion of the celebration of the XXX World Championship Shore Angling Women and the XLII World Championship Shore Angling Men.

The city of Peñíscola and the dynamic Provincial Council of Castellón have stood out for their support for sport, as an activity that generates values such as effort, self-discipline, respect and its integrating social capacity, to which are added specific values to sport fishing such as respect for aquatic ecosystems and the natural environment, as well as its great social transversality.

The tradition of promoting the sport characterises the entire Valencian Community. For this reason, both the Spanish Fishing and Casting Federation and the Fishing Federation of the Valencian Community are proud and satisfied that this world competition can be held on the marvellous beaches of Peñíscola and Castellón.

The Region of Valencia and its entire coastline are a major tourist attraction. During these days you will be able to discover its climate, its magnificent beaches, its historical monuments and its excellent and varied gastronomy.

You will see for yourselves its welcome and hospitality, every time the world of competitive fishing knocks on its doors.

I would like to publicly thank Fips Mer for organising this 41st and 30th edition of the Men's and Women's Shore Angling World Championships, without forgetting the recognition and support that the Consejo Superior de Deportes (CSD) has always given to our sport.

But I would not like to end this greeting and welcome lines without expressing my satisfaction, my recognition and sincere gratitude to the Fishing Federation of the Valencian Community, for its dynamism, its good management and brilliant promotion of the sport of fishing, which make it one of the great pillars of the Spanish Fishing and Casting Federation (FEPYC).

From here I would like to thank all its organisation, all its efficient and enthusiastic collaborators and in particular the Club de Pesca Cultural Deportiva. I am sure that this World Championship will shine with its own light.

Welcome and may the best one win.

¡Bienvenido y que gane el mejor!

DISCOVER CASTELLÓN

Castellón is a province that combines the charm of the sea and the mountains, offering visitors a great diversity of landscapes, activities and experiences. Its coastline, known as the Costa del Azahar, stretches for more than 120 kilometers and is home to fine sandy beaches, rugged coves, cliffs and dunes. Some of the most outstanding coastal towns are Peñíscola, Benicàssim, Oropesa del Mar, Vinaròs and Benicarló, where you can enjoy the sun, the sea, gastronomy and culture.

Peñíscola is one of the most beautiful towns in Spain, with its walled old town that juts into the sea forming a peninsula. There you can visit the Castillo del Papa Luna, the Artillery Park, the Casa de les Petxines and the hermitage of the Virgen de la Ermitana, among other attractions. Benicàssim is famous for its music festivals, such as the FIB and Rototom, and for its route of the villas, a group of modernist houses that were built in the early twentieth century along the promenade. Oropesa del Mar is an ideal destination for families, with its water park, marina, castle and historic center. Vinaròs and Benicarló are two towns that stand out for their fishing tradition and their gastronomy, based on seafood and rice.

The interior of Castellón is a land of contrasts, where you can find from green and fertile valleys to arid and desert areas. Nature is the protagonist, with natural parks such as Sierra de Irta, Tinença de Benifassà, Prat de Cabanes-Torreblanca, Penyagolosa and Desierto de las Palmas. In these areas you can practice activities such as hiking, cycling, climbing or canyoning. In addition, the interior of Castellón is home to some of the most surprising and beautiful villages in Spain, such as Morella, Vilafamés, Culla or Fanzara.

Morella is a medieval town perched on a hill surrounded by walls. Its historical and artistic heritage is impressive, with its castle, basilica, convents, museums and stately homes. Vilafamés is a town

that preserves its rural essence and popular architecture, with its castle, church, contemporary art museum and cobblestone streets. Culla is another example of a medieval village, with its walled enclosure, its keep, its church and its town hall. Fanzara is a village that has become an open-air museum, with more than 100 urban art murals decorating its facades.

The gastronomy of Castellón is another of its attractions, with a varied and tasty Mediterranean cuisine. Rice is the main ingredient in many dishes, such as paella, arroz a banda, baked rice or rice with lobster. Seafood and fish are also highly appreciated, especially shrimp, crayfish, clams, monkfish, tuna and sea bream. Meat and sausages also play a leading role, with lamb, pork, sausage, chorizo or black pudding. Among the typical dishes of the area are the "olla de la plana", "tombet", "ximo", "all i pebre" or "suquet de peix". To accompany, nothing better than a good local wine, such as Les Useres, Vilafamés or Benlloch. And to sweeten the palate, the most traditional desserts are cocas, sweet potato cakes, caramelized almonds or flaó.

Castellón is a province that has a lot to offer visitors, from sun and beach tourism to inland tourism, including cultural, sports, gastronomic and leisure tourism. It is an ideal destination to enjoy an unforgettable vacation, with a great quality of life and an incomparable hospitality.

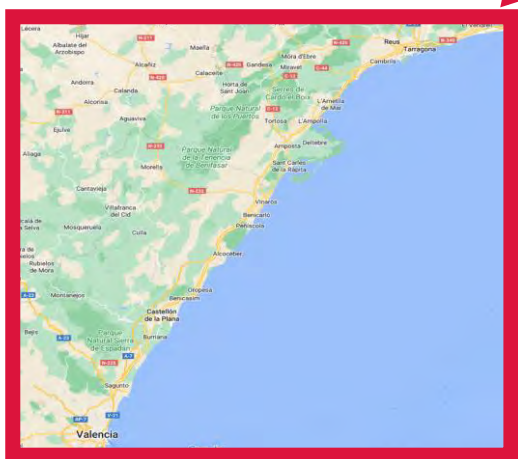

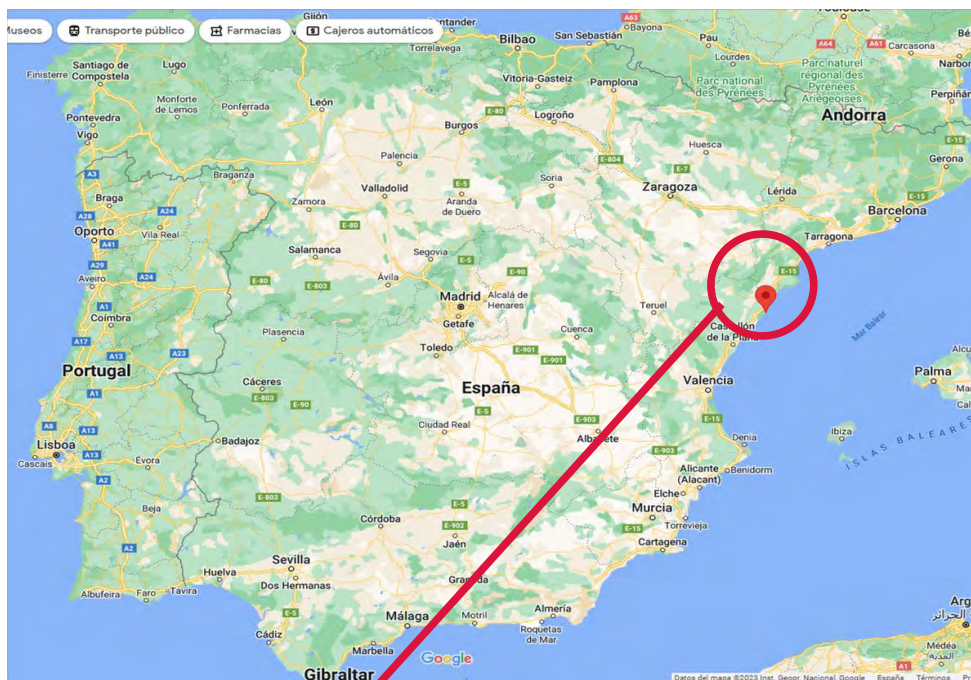

The 40th Men,s Shore Angling and 31th Women,s Shore Angling World Championships are organized by the International Federation of Sea Fishing (FIPS-Mer), organized by the Spanish Federation of Fishing and Casting (FEPyC), the Fishing Federation of the Valencian Community (FPCV) with the collaboration of the Cultural Sports Club and under the supervision of the International Committee of the Specialty.

ESSENTIAL ANTI-DOPING ADVICE

Athletes are reminded if they take any medication they must check it against the WADA Prohibited Substance & Methods list.

Particular attention must be paid to the use of anti- hypertensive agents, especially diuretics, which are popular in singular preparation and/or in a combination with other normally permitted drugs.

Diuretics are always forbidden.

For these reasons, it is necessary for every athlete or National Federation to check the list for prohibited substances and process a TUE as necessary. The Therapeutic Use Exemption (TUE) must be granted before taking a prohibited medication.

An application for a TUE must be requested 30 days before taking part in the championships. The application forms must be filled in carefully with your physician/doctor who must authorise the application. A physician's certificate or prescription on its own does not mean that the athlete has permission to use the prohibited substance or method.

The application should be completed either in English or French and sent directly to the office of the CIPS President.
